SUMMARY

Hands-on Engineering Leader with 10+ years of experience delivering revenue-critical fintech platforms in regulated environments. Proven track record of leading cross-functional engineering teams while actively contributing across mobile, backend, frontend, full-stack, and AI-powered product development. Experienced in taking products from concept to production, driving scalable system architecture, improving platform reliability to 99.9% uptime, reducing operational incidents, and delivering predictable outcomes across mobile, web, and backend services. Strong collaborator who translates business priorities into technical strategy, engineering roadmaps, and high-quality execution.

EXPERIENCE

❖ Tech Lead, Techninance | Mar 2026 - Present

New York, United States

- Led the technical strategy and end-to-end delivery of a cross-platform mobile product, aligning engineering execution with business objectives and launch timelines.
- Acted as a hands-on engineering lead across mobile, frontend, backend, and full-stack development while driving architecture, technical decision-making, and engineering best practices.
- Established scalable system design, coding standards, and comprehensive documentation to ensure maintainability, reduce onboarding time, and enable a seamless transition of ownership to the internal engineering team.

❖ Senior Engineering Manager, Komunal Indonesia | Feb 2025 - Feb 2026

Surabaya, East Java, Indonesia

- Led delivery and reliability of fintech platforms, achieving 99.9% uptime.
- Stabilized platform reliability from 60% to 95% and acted as primary escalation point.
- Delivered 100% of the product roadmap on time for two consecutive years while optimizing costs.

- Operated as a hands-on manager contributing across mobile, frontend, backend, and full-stack.

❖ **Engineering Manager, Komunal Indonesia | Nov 2022 - Feb 2025**

Surabaya, East Java, Indonesia

- Established delivery, reliability, and cross-functional execution foundations that later scaled under Senior Engineering Manager scope.

❖ **Tech Lead, Techinance | Sep 2022 - Nov 2022**

New York, United States

- Owned technical direction for a cross-platform mobile product, delivering a production-ready Flutter app in 3 months.
- Defined system architecture, engineering standards, and documentation to ensure maintainability.

❖ **Tech Lead, R/GA | Sep 2020 - Aug 2022**

Singapore

- Led mobile and web delivery for global client engagements in Singapore and Australia.
- Delivered brand-critical Android, iOS, and web products under tight timelines.
- Integrated secure payment solutions including Google Pay and Apple Pay.

❖ **Mobile Engineering Manager, Seven Retail | Jul 2019 - Aug 2020**

Jakarta Metropolitan Area, Indonesia

- Drove end-to-end delivery of 5 production mobile applications within 12 months.
- Integrated third-party payment systems (GoPay, OVO, Dana) for high-volume transactions.

❖ **Senior Mobile Engineer, PT Infotech Solutions | Nov 2017 - Jun 2019**

Jakarta Metropolitan Area, Indonesia

- Modernized a large legacy Android codebase for Starbucks Indonesia (~90% refactor).
- Built the Domino's Pizza Indonesia mobile app from scratch with Magento REST API integration.

❖ **Full Stack & Mobile Engineering, PT Kosti Solo, CV Kompak Tour | Apr 2014 - Oct 2017**

Central Java, Indonesia

- Built and maintained Android applications and web systems supporting travel and booking.
- Delivered multiple production Android applications integrated with REST APIs and CMS backends.

EDUCATION

❖ **Muhammadiyah University of Surakarta**

Bachelor's degree, Information Technology

TOP SKILLS

- ❖ Mobile Apps Engineering - Android Native (Java, Kotlin), iOS Native (Objective-C, Swift), Flutter (Dart)
- ❖ Full-Stack Engineering - MEAN, MERN
- ❖ Backend Engineering - Magento (PHP), NestJS (JavaScript, TypeScript), NextJS (JavaScript, TypeScript)
- ❖ Frontend Engineering - React (JavaScript), NextJS (JavaScript, TypeScript), Angular (TypeScript), CMS (Wordpress, Joomla, Drupal)
- ❖ Cloud Engineering - Google Cloud Service, Amazon Web Service, Ali Cloud
- ❖ Generative AI & Large Language Models (LLM) - Prompt Engineering, Python
- ❖ Platform Stability & Incident Management - Documentation, Report, Post Mortem
- ❖ Remote & Cross-Functional Execution - Indonesia, Singapore, Australia, USA

LANGUAGES

- ❖ Indonesian & English

CERTIFICATIONS AND LICENSES

- ❖ Machine Learning with Python
- ❖ Artificial Intelligence Fundamentals
- ❖ Deep Learning Fundamentals
- ❖ Cloud Computing Fundamentals
- ❖ Information Technology Fundamentals
- ❖ Web Development Fundamentals
- ❖ User Experience Design Fundamentals
